Thank you for this Margaret, very timely and informative. I understand that I will be one of the four represented by Blake Laphorn and Harriet Jerram.

I am currently overseas and do not return to UK until 8 March, and naturally feel a little isolated from events as they now unfold. However, there is one **urgent matter** that I would like you raise with Peter if you would be so kind, and have copied below my letter to John White (8 Feb) in this connection:

Dear John,

Have been wondering if you have read the police statement by Beverley Anne TURNBULL (Paper 39 of the bundle supplied by the coroner).

She was nursing the elderly before Barton came on the scene, and says they never used opiates before Barton, or syringe-drivers. She also speaks of formal complaints by herself, and Nurses Giffin and Tubritt about the unnecessary use of opiates, and being labelled trouble-makers. She also mentions **correspondence and minutes** she has retained from the time.

Clearly an important witness.

Would it not be appropriate to ask the coroner to call Giffin and Tubritt as well (or maybe he already has, since I don't have the total package with me), even though they do not appear to have been involved with my step-father?

Also, to ask for the mentioned correspondence and minutes to be made available.

VBW

Charles

Would Peter please ensure that these papers are obtained if at all possible, as it looks as though the Health Authority has deliberately turned a blind eye to what was going on for many years.
