Is it definite that Prof. Forrest will do an opinion and if so have you warned Mr. Horsley there is going to be a delay – I do not understand why you have been in contact with Ford. The only opinions of worth are Forrest and Livesley in that order . I am not going to accept an inquest in March or April – however inconvenient to the other barristers or even Mr. Horsley . Please confirm , if possible by return – as I am in for another bout of hospital appointments and have to go out for the rest of today. Gillian
