Dear Sir Liam

**Re: The Gosport Case**

Thank you for asking me to meet you and your colleagues yesterday and for your kind attention.

I have reflected upon the question you raised about the surprisingly protracted and threateningly aggressive behaviour to which I had been exposed. As an experienced physician a phrase that comes to mind is 'aggression related to panic'.

To assist you with your further deliberations on this matter enclosed is a copy of my updated mini-CV outlining my continuing special experience.

Once again, thank you for your kindness.

Yours sincerely

Brian Livesley
