**Detective Chief Inspector T. Harper
Scientific Support Department**

Code A

Dear Mr Harper

Medical expert reports for Essex Police (Operations Testament, Sherborne etc.)

You will recall that during the last three years I have submitted several invited medical expert reports.

I would be grateful if you could kindly let me have a few lines about the contributions, if any, you think my reports made to those investigations and their outcomes. My mentor will use your comments in my personal professional assessment.

Yours sincerely

**Brian Livesley
Emeritus Professor**
