

## **GOSPORT WAR MEMORIAL HOSPITAL**

CHI's line should we be contacted about the new clinical audit at the hospital:

"The Commission for Health Improvement (CHI) conducted a comprehensive and robust investigation at Gosport War Memorial Hospital. The clinical audit announced today by Professor Liam Donaldson, Chief Medical Officer, is an investigation of different issues to those included in CHI's investigation. It was not within CHI's terms of reference to review trends or patterns of death at the hospital.

If requested, CHI is happy to cooperate fully with Professor Richard Baker's clinical audit."
