Do we say anything about the return of all material and/or its destruction once the review is concluded? Or that all material remains the property of NHS South Central??

It may be a bit bureaucratic, but otherwise it could be used as the basis for another report, etc....

PI add para to  
end of letter to  
cover this.  
V amended letter  
and emailed new  
version to Jenifer  
17/7  
T.A. T.

Sent on behalf of Terry Renshaw:

As discussed I have prepared:

- draft appointment letter
- confidentiality declaration
- role of the independent investigator

I would welcome your comments on the attached, particularly the briefing note outlining the role. If it is before Friday I can incorporate any changes. If it is after Friday, please pass them to **Code A** and when an investigator is identified and board approval given for the appointment, **Code A** will be able to raise the necessary paperwork.

Terry
