Subject: Mental Health Inquiry

We have a mental health homicide from within our 'current' geographical area that we need to seek an independent scrutiny of the inquiry they have already carried out which used external professionals.

As you have helped us in the past with the Dr S Inquiry I wondered whether you might be interested in undertaking this piece of work for us. I have attached a copy of the latest draft terms of reference for the External Review into the death of William Amesbury on 2 December 2004.

If you are interested in undertaking this work I should be grateful if you would contact Dr Jenifer Smith, Consultant in Public Health/Deputy Medical Director, on [redacted] **Code A** and at [redacted] **Code A** and she will be able to provide more detail regarding the background to this incident.

I look forward to hearing from you.

Terry Renshaw
Corporate Business Manager
