

Lilian Norah Madeline HUTFIELD **Code A**

Died 13 June 1997 at Gosport War Memorial Hospital

October 2002 I started to investigate the death of the above.

January 2003 I obtained hospital notes (possibly not medical notes, nursing notes only), pages relating to 28.5.97 – 10.6.97 were missing, also missing is a copy of incident form as mentioned in text-dated 10.6.97.

Due to my personal situation I was unable to take any action regarding the notes.

It was not until September 2013 that I contacted Norman LAMB, after reading a report in the local paper.

By now I found strength to take this case forward.

September 2013 I contacted my MP, Caroline DINENAGE, by email. My email was answered by Glen DUGGAN (*her deputy?*), nothing from my MP! See included. I phoned the office and spoke with DUGGAN, he was abrupt and off-handish over this very sensitive subject. His response was terse, I was told to contact the police if I had any fears over the death, but nothing would be done as the records had all been destroyed. I told him that I had records supplied by the hospital; he said in that case I should report 'a murder'.

Enclosed is a copy of a letter found on the Internet, it is to Caroline DINENAGE from the General Secretary to The Armed Forces Federation. This letter clearly states that DUGGAN is doing duties of the MP. What involvement did DUGGAN have in the previous inquiries and did he act in place of VIGGARS, the previous MP?
