

QA 7-12-06

This just gets worse. Jim's carer came in this morning and noticed he still has a stitch in his side from the thyroscopy. She says the backside is the worst she has ever seen. If I hadn't got him out of QA I wonder how long it would have been before they noticed these bed sores and the skin now off, right down to flesh. This is disgusting.

• Dec/29th  
End of Jan. Heather, Bill & I had to take Jim to QA outpatients to see Dr Mark Roland

Anne Moylan was in attendance. (Cancer nurse) - we asked about confusion. Dr. said it is similar to "post traumatic stress" as he had had such a dreadful time in hospital.

8th Jan. Jim taken to Mon-batten House moorgreen hosp. where he died on 18 Jan peacefully. These people at the hospice case why can't staff in QA ???
