Subject: Nurses statement

Has James had a copy of the Nurses transcripts of verbal interviews – you know that statements are polished up versions of the verbal interviews when they have all had time to get together and compare notes – the transcripts of interviews are much more revealing and damning and you already have what was said under cross examination at the GMC hearing - I have given the GMC transcript to my media contacts (restricted)to Dominic Blake Radio Solent and Andrew Pate ITV and will handover to Nina Lakhani when I next go up to London. Gillian Have you ever handled a potential criminal case – you have to take your gloves off !
