02392894348

Date of admission

Alleged cause of death

Overdose of morphine + Midazolam.

Brief description of circumstances of death. (five lines)

Alice's daughter thought she may have had stomach ache. Within hours she was on a syringe driver + unconscious. She died very soon after.

Names (if known) of any of the doctors or nurses who provided the treatment.

Dr Jane Barton  
Ph: Philip Beard.

Which ward were they on?

Sultan

Was Diamorphine and/or any other treatment administered through a syringe driver device?

Yes, diamorphine + Midazolam

What regime for fluid intake was there?

Very poor records re fluid intake + very little evidence of fluids being offered or assistance for feeding/drinking.

What investigations have been undertaken so far?

Police investigation.  
Complaint with GMC.  
CHI report.  
Complaints to hospital trust.

02392894348

Was there a police investigation? - give details:

Yes, However, Police have never taken a formal statement from the family. Very little response / communication with Police, so hard to say how far it was investigated.

What documents do you have? - please list the types

- Complaint Correspondence
- Alice's case files
- Documents / Correspondence to Police etc.

What are the main reasons that you consider that there should be an inquest in the case of your relative (five lines)

We do not believe Alice died of natural causes. We do not believe she was dying + that a sunbed over was the appropriate treatment. Grave concerns regarding care given which would potentially have caused her death.

Do you give permission for us to provide a copy of this questionnaire to the Coroner and to request that you are included within the inquest?

Yes

Please let us know if there is anything else you consider to be relevant? (three lines)

If you have any queries in relation to this survey please contact Anita Perry at anita.perry@blaw.co.uk
