Subject: Statement from Dr Lord

Attachments: LON-3575763-v1-statement.mdu.DOC

Good afternoon

I have just heard from Radcliffes Le Brasseur on behalf of Dr Lord - currently in New Zealand. She has approved a statement prepared for her by the MDU. Ostensibly this is for the GMC proceedings but not at all clear

It would seem to me that she accepts there was a practice of prescribing within a range (once pain diagnosed) and 'anticipatory' prescribing. .

I have spoken to Briony about this and at this stage I have no idea as to the intentions of the MDU bit I have no indication that they are trying to use it.

I am due down on Monday evening and will stay with Ian Reid on Tuesday / Wednesday unless I hear that things have changed

Many thanks
