2. One year or more

Narrative VerdictLeslie Charles PITTOCK

The deceased was an inpatient at Gosport War Memorial Hospital and was receiving Opioid Medication at the time of death. The administration of medication did not contribute more than minimally or negligibly to the death of the deceased.

3.12 Drug Chart Analysis:

On 5th January at transfer (16M), Mr Pittock is written up for the standard drugs that he was on in the mental health ward including his Sertraline and Lithium (for his depression) Diazepam (for his agitation) Thyroxine for his hypothyroidism. The drug chart also had Diamorphine 40 - 80 mgs subcut in 24 hours, Hyoscine 200 - 400 micrograms subcut in 24 hours and Midazolam 20 - 40 mgs subcut in 24 hours. Midazolam 80 mg subcut in 24 hours written up but not dated and never prescribed. (18M)

3.13 On 10th January, Oramorph 10 mgs per 5 mls is written up for 2.5 mls four hourly and prescribed on the evening of 10th and the morning of the 11th. On the 11th Oramorph 10 mgs per 5 mls is written up to be given 2.5 mls 4 hourly 4 times a day with 5 mls to be given last thing at night. This is then given regularly between 11th and up to early morning on 15th January. This is a total daily dose of 30 mgs of Morphine (19M). The Lithium and Sertraline are crossed off after the 10th January.

3.14 Diamorphine 80 - 120 mgs subcut in 24 hours is written up on 11th January "as required" as is Hyoscine 200 - 400 micrograms in 24 hours, Midazolam 40 - 60 mgs in 24 hours. 80 mgs of Diamorphine together with 60 mgs of Midazolam are then started by syringe driver on the morning of the 15th January and re-started on both the mornings of the 16th and 17th January. (18M). On 16th January Haloperidol 5 mgs - 10 mgs subcutaneous for 24 hours is written up, prescribed over 24 hours on both 16th and 17th, 1 am not clear if this was mixed in the other syringe driver or was the "second pump" referred to in the nursing cardex. (20M and 27M)

Diamorphine 120 mgs subcut in 24 hours is then prescribed on 18th January, together with Hyoscine 600 mgs subcut in 24 hours. The drug charts (20M) show this starting on the morning of 17th January and at 08.30 hours. If this correct there may have been up to three syringe drivers running, one with Diamorphine 80 mgs, one with Diamorphine 120 mgs in and one with the Haloperidol. The reason for this confusion needs clarification, but is possibly a nursing error with the drug chart.

The subsequent drug charts all appear to be missing for the final 6 days, however the nursing notes (27M, 28M and 29) suggest that there was a fairly constant prescription of 120 mgs of Diamorphine 24 hours, Midazolam 80 mgs 24 hours, Hyoscine 1200 mgs, Haloperidol 20 mgs and Nozinan 50 mgs. On the 20th there was no Haloperidol and the Nozinan was increased 100 mgs a day. This is still the prescription on 23rd January (27M).

Drug	Date prescribed	Prescribed as	Prescriber	Given
Oramorphine	10/01	10 mgs in 5 mls 2.5 mls, 4hrly oral Regular	Barton	10/01 2200 11/01 0800 (never crossed out)
Diamorphine	?	40 mgs S/C in 24 hours Regular	Barton	Never given or crossed off
NEW DRUG CHART				
Midazolam	?	20 - 40 mgs S/C in 24 hours Regular	Barton	Never given or crossed off
Diamorphine	11/01	80 - 120 mgs S/C in 24 hours PRN	Barton	15/01 ? 80 mgs 16/01 0815 80 mgs 17/01 ? 80 mgs
Midazolam	11/01	40 - 60 mgs S/C in 24 hours PRN	Barton	15/01 ? 60 mgs 16/01 ? 60 mgs 17/01 ? 60 mgs
Midazolam	? 16/01	80 mgs S/C in 24 hours PRN	Barton	Never given
Oramorphine	11/01	10 mgs in 5 mls Oral 2.5 mls 4 hourly Regular	Barton	Regular doses 4 times a day until 0600 on 15/01 No further doses Not crossed off
Oramorphine	11/01	10 mgs in 5 mls Oral 5 mls nocte	Barton	11/01 - 15/01 2200 No further doses Not crossed off
Diamorphine	18/01	120 mgs S/C in 24 hours	Barton	"17/01" 0830 120 mgs (probably 18/01)

RECEIVED

29 APR 2008

Dear Mrs Wiles

Leslie Charles Pittock Deceased: DOB: **Code A**

As you will no doubt be aware from Hampshire Police, they have passed to me details of a number of deaths that occurred some years ago at Gosport War Memorial Hospital, including details of the death of Mr Pittock.

I have decided to open Inquests to look into how ten of these deaths occurred. One of these Inquests will concern Mr Pittock.

The Police investigations into the deaths were very complex and took a number of years to complete. When their files were given to me there was an additional complication before I could get to the present stage; seven of the ten people concerned had been cremated and I had, by law, to obtain the formal consent of the Ministry of Justice to open Inquests on their deaths. This consent has now been given and I am in a position to make further progress.

To assist me in opening the Inquests I should be most grateful if you could kindly complete the enclosed questionnaire in relation to Mr Pittock and return it to me as soon as you can. I enclose a stamped addressed envelope for your reply.

Once the Inquests have been opened, decisions will need to be taken about the logistics of organising ten complex Inquests. Issues such as who are to be called as witnesses, how long the Inquests will take, and where will they be held, will have to be resolved. As you will appreciate, it takes time to sort out these matters and, therefore, further progress will not happen overnight. I will,

however, do my best to keep you informed about key developments from your point of view.

The Inquests will put a great deal of pressure on the resources available to me and, of course, I must maintain an effective level of service as regards all the other deaths that I have to deal with at the same time as preparing for and holding these Inquests. Consequently, it has been agreed that these Inquests will be conducted on my behalf by another very experienced Coroner acting as my deputy – rather like the way Inquests into service deaths in the Middle East are being dealt with at the moment. That Coroner is to be Mr A M Bradley who is HM Coroner for North Hampshire. However, all administrative arrangements for the Inquests will be handled by my office and any correspondence about them – even when addressed to Mr Bradley – should, please, be sent to my office.

If I can assist you any further at this stage, please do not hesitate to contact me.

Yours sincerely
