Subject: Re: Another inquest

Ann

I do empathise, but sadly we cannot draw a line under the. DoH have just ruled out a public inquiry, ditto the police have ruled out opening another investigation. All of this is good.

However the families can still raise a private prosecution, so I am afraid it isn't necessarily over. Sorry

Brian

Dear Emma, has the coroner indicated whether this will be the final one as this cannot continue ad infinitum. The endless enquiries of one sort or another at Gosport have taken a huge toll on some of the staff involved. Could you let me know which staff are likely to be involved with this further inquest Thanks Ann

Dear all

Please find information below about an 11th inquest into deaths at GWMH. Apologies if you have already received this via another source Rgds Emma

Hi, jst to let you know that the 11th inquest has been opened and adjourned. This is into the death of Gladys Richards, the original complaint. We don't have a date yet but it could mean Dr Barton's GMC hearing has to be postponed. This case involves a different set of witnesses - three of whom still work for PHT and one for HCHC, four retired.
