I thought it was East hants, Elaine Williams. Anyway, if you look in the attachment, Mary has asked the PCTs as well, but Dr Jarrett helped us last week as he found a letter that they were looking for and he is now of course our staff. In addition, in the attachment you will see that they are looking for current policies as well. Dr Jarrett will no doubt know which ones are relevant, so I'll ask him but he seems to be incredibly busy at the moment from last time I spoke to him.
