Subject: request for information

Dear Sue

I have gone through my Gosport file. I have not got Jane Barton's resignation letter. From what I remember she was finding the increasing work load harder to manage. I have looked in the medical personnel file but there is nothing on Jane Barton. A lot of the correspondence at that time was related to the perennial problem of lack of beds and the consequent cancellation of operating lists. It is 7 pm and I have just been phoned about the need to identify and move patients urgently to St Marys to create QAH beds. Nothing changes. There was a letter from me on the 16 February about the underutilisation of some of the continuing care beds and the need to work flexibly. Enclosed with this is a policy on the emergency use of community beds. This may be the letter Jane Barton was referring to. I have the dates of Jane Bartons time with us namely 1 May 1988 to 30 June 2000. If you want a copy we can fax it to you.

David Jarrett
