Sir

I have reviewed the original medical records of Code A N1001 (BJC/65) and compared them with the original hard copies provided by **WORM**<sup>L313</sup>.

I have noticed that the following documents have not been copied.

1. The reverse side of a letter, dated 20/24/10/1994 from Dr PRICE
2. A Radiology service report dated 30/09/1994

These documents have been marked/placed in plastic sleeves for future reference.
