Dear Althea,

Ivy WILLIAMSON **Code A**  
**Code A**

Thank you for your letter to Simon Evans about this lady with metastatic malignant melanoma. Simon is on leave.

I agree that there is no utility to her coming to see us in the Chest Clinic and thank you for cancelling her appointment on 25 August. I am sure you are right to discuss her with Danny Dubois, although I doubt that any active therapy is justified on the basis of her lung metastases.

With kind regards,

**Code A**
