drugs1	
Diamorphine 20-80 mg sc written up 6.12.99, started 22.12.99 Hyoscine 200-800ug written up 6.12.99, not started. Midazolam 20-80mg written up 6.12.99, started 22.12.99. Oramorph written up 19.12.99 5-10 mg	
0	opiates
3	2
drugs1	
Oramorph recorded 21.2.2000 5-10 mg 4 hrly, started 22.12. Diamorphine sc 20-80mg in 24 hrs and hyoscine 200-800ug in 24hrs both written up 21.2.2000. Diamorphine started 23.2.2000. Other drugs were used but are not detailed as they were not opiates (EG, GTN, ranitidine).	
0	opiates
4	2
drugs1	
The drug chart was usually completed by Dr Barton. Oramorph was started at an early stage (December 1997) and continued, MST also being used from 1997; eventually replaced by diamorphine by syringe driver. There is a large number of drug charts and the pattern is difficult to disentangle, but it appears that MST was used regularly, with oramorph for break through pain.
