

Carverne

Just a minor point on the GWMH report -  
(probably only relevant if the  
paper goes on to another audience)  
- in para 1.1, it was actually  
Pestivirus & SE Hampshire Health  
Authority that was responsible  
for GWMH in 1996-1998. The  
PCOs came into being c 2001/02,  
so it was (rightly) the PCOs  
who were specified (as successor  
bodies) in the CHH report.
