Opinion on patient management

Leadership, roles, responsibilities and communication in respect of the clinicians involved

3.7 Primary responsibility for the medical care of Mr Cunningham during his last admission lay with Dr Lord, as the consultant responsible for his care. She saw Mr Cunningham 5 days before his death in the Dolphin Day Hospital, and 2 days before his death on Dyad ward. My understanding is that day-to-day medical care was the responsibility of the clinical assistant Dr Barton and during out of hours period the on call doctor based at the Queen Alexander Hospital. Ward nursing staff were responsible for assessing and monitoring Mr Cunningham and informing medical staff of any significant deterioration.

Accuracy of diagnosis and prognosis including risk assessments

3.8 Initial assessment by Dr Lord was comprehensive and appropriate with a clear management plan described. The nursing staff record Mr Cunningham was agitated following admission on 21st September.
